In 1469, Henry IV died without any legitimate heirs, and Isabella became the Queen of Castile. She was just 18 years old, but she was already a wise and capable leader. Isabella quickly set about reforming the kingdom, and she made many important changes to the government, the church, and the military. She also played a key role in the Spanish Reconquista, the centuries-long struggle to drive the Moors out of Spain.

In 1474, Isabella married Ferdinand of Aragon, and together they united the kingdoms of Castile and Aragon. This union created the Kingdom of Spain, which would become one of the most powerful empires in the world.

Isabella and Ferdinand were both devout Catholics, and they worked together to spread Christianity throughout their kingdom. They also supported Christopher Columbus's voyage to the New World, which would have a profound impact on the history of the world.

Isabella of Castile was a remarkable woman who defied the expectations of her time. She was a fierce warrior, a skilled diplomat, and a devout Christian. Her story is an inspiration to all who dare to dream big.
