Are you a French speaker who wants to improve your English skills? If so, then you know that one of the most important things to master is English verbs.

English verbs are more complex than French verbs, and there are many irregular verbs that can be difficult to remember. But don't worry, with the right approach, you can learn English verbs and never confuse them again.

In this article, we will provide you with the essential guide to mastering English verbs. We will cover everything from verb conjugation to irregular verbs, and we will provide you with plenty of examples to help you learn.

Verb Conjugation

The first step to mastering English verbs is to learn how to conjugate them. Verb conjugation is the process of changing the form of a verb to indicate

the tense, mood, and person.

There are three main tenses in English: the present tense, the past tense, and the future tense. Each tense has four moods: the indicative mood, the subjunctive mood, the imperative mood, and the conditional mood.

The indicative mood is used to express facts or opinions. The subjunctive mood is used to express wishes, hopes, or doubts. The imperative mood is used to give commands or requests. The conditional mood is used to express possible or hypothetical situations.

The person of a verb indicates who is performing the action. There are three persons in English: the first person (I, we), the second person (you), and the third person (he, she, it, they).

To conjugate a verb, you need to know the root form of the verb and the appropriate ending for the tense, mood, and person.

Here is a table of the regular verb endings in English:

Tense	Mood	Person	Ending
Present	Indicative	1st person	-s
Present	Indicative	2nd person	-
Present	Indicative	3rd person	-s
Past	Indicative	1st person	-d

Tense	Mood	Person	Ending
Past	Indicative	2nd person	-d
Past	Indicative	3rd person	-ed
Future	Indicative	1st person	-will
Future	Indicative	2nd person	-will
Future	Indicative	3rd person	-will

For example, the root form of the verb "walk" is "walk". To conjugate the verb "walk" in the present tense, first person, you would add the ending "-s" to the root form. This would give you the conjugated verb "walks".

Irregular Verbs

In addition to regular verbs, there are also irregular verbs in English. Irregular verbs do not follow the regular rules of conjugation. Instead, they have their own unique set of conjugations.

There are over 200 irregular verbs in English, so it is impossible to memorize all of them. However, there are some common patterns that you can learn to help you remember the conjugations of irregular verbs.

For example, many irregular verbs change their vowel in the past tense and past participle. For example, the verb "sing" becomes "sang" in the past tense and "sung" in the past participle.

Other irregular verbs change their consonant in the past tense and past participle. For example, the verb "write" becomes "wrote" in the past tense and "written" in the past participle.

Still other irregular verbs have completely different forms in the past tense and past participle. For example, the verb "be" becomes "was" in the past tense and "been" in the past participle.

The best way to learn irregular verbs is to memorize them one at a time. You can use flashcards or a verb conjugation table to help you remember the conjugations.

Transitive and Intransitive Verbs

Verbs can also be classified as transitive or intransitive.

Transitive verbs require a direct object. A direct object is a noun or pronoun that receives the action of the verb.

For example, in the sentence "I eat pizza," the verb "eat" is a transitive verb and the noun "pizza" is the direct object.

Intransitive verbs do not require a direct object. They can stand alone.

For example, in the sentence "I sleep," the verb "sleep" is an intransitive verb and there is no direct object.

Modal Verbs

Modal verbs are a type of auxiliary verb that is used to express possibility, necessity, or advice.

The most common modal verbs are:

- can
- could
- may
- might
- must
- should
- would

Modal verbs are always followed by another verb. The second verb is always in the infinitive form.

For example, in the sentence "I can speak English," the modal verb "can" is followed by the infinitive verb "speak".

Auxiliary Verbs

Auxiliary verbs are a type of verb that is used to help another verb.

The most common auxiliary verbs are:

- be
- have
- do

Auxiliary verbs are used to form the passive voice, the perfect tenses, and the progressive tenses.

For example, in the sentence "I have eaten pizza," the auxiliary verb "have" is used to form the perfect tense.

Phrasal Verbs

Phrasal verbs are a type of verb that is made up of a verb and a preposition or adverb.

Phrasal verbs can have a different meaning than the original verb.

For example, the phrasal verb "look up" means "to search for something".

There are many phrasal verbs in English, so it is important to learn them as you come across them.

Mastering English verbs is essential for French speakers who want to improve their English skills.

By following the tips in this article, you can learn English verbs and never confuse them again.
