

Oracle: The Unofficial Biography of Larry Ellison and the World's Most Controversial Company

Oracle is the second-largest software company in the world, and its founder and CEO, Larry Ellison, is one of the most successful and controversial figures in the tech industry. In this unauthorized biography, Bloomberg Businessweek journalist Matt Richtel tells the inside story of Oracle's rise to power, from its humble beginnings in a California garage to its dominance of the enterprise software market.

Software: An Intimate Portrait of Larry Ellison and Oracle

Richtel has interviewed hundreds of people for this book, including Ellison himself, and he has gained access to a wealth of internal documents and emails. The result is a fascinating and revealing portrait of a complex and enigmatic man. Ellison is a brilliant and driven entrepreneur, but he is also a ruthless and demanding boss. He has been accused of sexual

harassment, bullying, and even fraud. But he has also been responsible for creating one of the most successful companies in the world.

Oracle is a company that has always been at the cutting edge of technology. Ellison was one of the first to see the potential of the internet, and he has been a major investor in cloud computing and artificial intelligence. Oracle's products are used by millions of businesses around the world, and the company has a market capitalization of over \$170 billion.

But Oracle is also a company that has been plagued by controversy. Ellison has been criticized for his aggressive sales tactics, his lavish lifestyle, and his close ties to the Republican Party. The company has also been accused of anti-competitive practices and of violating its customers' privacy.

Despite the controversy, Oracle remains one of the most important companies in the world. It is a major player in the software market, and its products are used by millions of businesses around the world. Ellison is a brilliant and driven entrepreneur, and he has built a company that has had a major impact on the world.

Reviews

"Matt Richtel has written a fascinating and revealing portrait of Larry Ellison and Oracle. This book is a must-read for anyone interested in the history of technology, business, or Silicon Valley."

- Walter Isaacson, author of *Steve Jobs*

"Oracle is a warts-and-all biography of one of the most successful and controversial companies in the world. Richtel does a masterful job of

capturing the essence of Larry Ellison and his company."

- Brad Stone, author of *The Everything Store: Jeff Bezos and the Age of Our Book Library*

"A must-read for anyone interested in the tech industry. Richtel has written a definitive account of Oracle's rise to power and its ongoing battle for dominance."

- Kara Swisher, co-founder of Recode
