In "The Inside Story From Launch Control," former NASA launch controller Gene Kranz tells the inside story of America's space program from the perspective of those who lived it. With exclusive interviews and never-before-seen photos, this book takes readers behind the scenes of some of the most iconic moments in space exploration history, including the launch of Sputnik, the moon landing, and the Apollo 13 mission.

Kranz, who was the flight director for the Apollo 11 mission, provides a unique perspective on the challenges and triumphs of space exploration. He describes the intense pressure of launch day, the exhilaration of a successful mission, and the heartbreak of a tragedy like Apollo 13. He also shares his insights into the personalities and motivations of the astronauts and engineers who made America's space program possible.

"The Inside Story From Launch Control" is a must-read for anyone interested in space exploration. It is a thrilling account of the challenges and triumphs of one of the most ambitious endeavors in human history, told by the people who lived it.

Exclusive Interviews

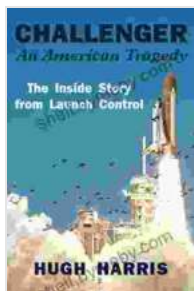

Kranz interviewed dozens of former NASA employees for "The Inside Story From Launch Control," including astronauts, engineers, and mission controllers. These interviews provide a unique perspective on the human side of space exploration. Readers will learn about the astronauts' fears and anxieties, the engineers' ingenuity, and the mission controllers' dedication to their work.

Never-Before-Seen Photos

Kranz also includes dozens of never-before-seen photos in "The Inside Story From Launch Control." These photos provide a glimpse into the behind-the-scenes world of NASA's space program. Readers will see photos of the launch pad, the mission control room, and the astronauts training for their missions.

A Must-Read for Space Enthusiasts

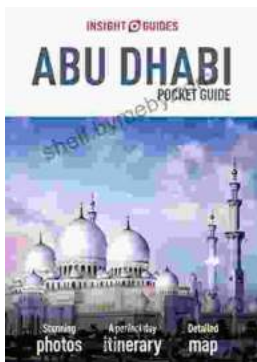

"The Inside Story From Launch Control" is a must-read for anyone interested in space exploration. It is a thrilling account of the challenges and triumphs of one of the most ambitious endeavors in human history, told by the people who lived it. With exclusive interviews and never-before-seen photos, this book is a must-have for any space enthusiast.
