4 Steps of Perspective Taking

01

When two people share a common space, they have thoughts about each other. I have a thought about you. You have a thought about me.

02

I consider the thoughts of the other person. I may begin to wonder what they are thinking. Possibly the other person is also considering my thoughts or motives.

03

Each person considers what the other may be thinking about them. Is it positive, negative, neutral? Is there history between us upon which we weigh these thoughts?

04

I monitor & possibly modify my behavior to keep the other person thinking about me the way I want them to think about me. They are doing the same for me.
